

Welcome to your new three-cart collection system!

Waste Management has delivered to your home a 64-gallon cart for trash service and a 96-gallon cart for mixed recycling service. ***Your existing 96-gallon black cart will be reused for your green waste service.*** If after 30-days you find that the 64-gallon trash cart does not provide you with enough trash service please call our Customer Service Center to request a high volume 96-gallon trash cart. A Senior Discount is available to citizens 65 years of age and older. Please call our Customer Service Center at (800) 323-6824 for more information.

Trash carts will be picked up every week. Recycling will be collected every other week alternating with green waste. For your convenience, included in this "Start-up Kit" is a collection calendar. The collection calendar will help you keep track of recycle weeks and green waste weeks for the 2008 calendar year.

All acceptable recyclable materials should be mixed together and placed in the recycling cart. The new mixed recycling program accepts glass and plastic beverage and food containers, aluminum and metal cans, mixed paper, junk mail and cardboard. For a more detailed list please refer to the enclosed list.

All acceptable green waste material should be placed in the green waste cart. The green waste program accepts organic material from your yard or garden, including leaves, brush, limbs and grass clippings. For more detailed information please refer to the enclosed list.

We look forward to working with you to make this exciting new recycling program a success. Call Waste Management Customer Service at (800) 323-6824 with questions, concerns, or for more information.

Thank you!
