Bids are to be submitted for the entire work necessary to construct those items listed in the "Contractor's Bid" sheet (P-3). The amount of the bid for comparison purposes will be the total of all items of the base bid and any combination of the bid alternates.

The bidder shall set forth for each unit basis item of work a unit price and a total for the item, and for each lump sum item a total for the item, all in clearly legible figures in the respective spaces provided for that purpose. In the case of unit basis items, the amount set forth under the "Item Total" column shall be the product of the unit price bid and the estimated quantity for the item.

In case of discrepancy between the unit price and the total set forth for a unit basis item, the unit price shall prevail, except as provided in (a) or (b), as follows:

- (a) If the amount set forth as a unit price is unreadable or otherwise unclear, or is omitted, or is the same as the amount as the entry in the item total column, then the amount set forth in the item total column for the item shall prevail and shall be divided by the estimated quantity for the item and the price thus obtained shall be the unit price;
- (b) (Decimal Errors) If the product of the entered unit price and the estimated quantity is exactly off by a factor of ten, one hundred, etc., or one-tenth, or one-hundredth, etc. from the entered total, the discrepancy will be resolved by using the entered unit price or item total, whichever most closely approximates percentage wise the unit price or item total in the Department's Final Estimate of cost.

If both the unit price and the item total are unreadable or otherwise unclear, or are omitted, the bid may be deemed irregular. Likewise if the item total for a lump sum item is unreadable or otherwise unclear, or is omitted, the bid may be deemed irregular unless the project being bid has only a single item and a clear, readable total bid is provided.

Symbols such as commas and dollar signs will be ignored and have no mathematical significance in establishing any unit price or item total or lump sums. Written unit prices, item totals and lump sums will be interpreted according to the number of digits and, if applicable, decimal placement. Cents symbols also have no significance in establishing any unit price or item total since all figures are assumed to be expressed in dollars and/or decimal fractions of a dollar. Bids on lump sum items shall be item totals only; if any unit price for a lump sum item is included in a bid and it differs from the item total, the items total shall prevail.

The foregoing provisions for the resolution of specific irregularities cannot be so comprehensive as to cover every omission, inconsistency, error or other irregularity which may occur in a bid. Any situation not specifically provided for will be determined in the discretion of the City of Waterford, and that discretion will be exercised in the manner deemed by the City of Waterford to best protect the public interest in the prompt and economical completion of the work. The decision of the City of Waterford respecting the amount of a bid, or the existence or treatment of an irregularity in a bid, shall be final.

If this proposal shall be accepted and the undersigned shall fail to enter into the contract and furnish the 2 bonds in the sums required by the State Contract Act, with surety satisfactory to the City of Waterford within 14 calendar days, not including legal holidays, after the bidder has received notice from the City of Waterford that the contract has been awarded, the Department of Public Works may, at its option, determine that the bidder has abandoned the contract, and thereupon this proposal and the acceptance thereof shall be null and void and the forfeiture of the security accompanying this proposal shall operate and the same shall be the property of the City of Waterford.

The undersigned, as bidder, declares that the only persons or parties interested in this proposal as principals are those named herein; that this proposal is made without collusion with any other person, firm, or corporation; that

he has carefully examined the location of the proposed work, the annexed proposed form of contract, and the plans therein referred to; and he proposes, and agrees if this proposal is accepted, that he will contract with the City of Waterford in the form of the copy of the contract annexed hereto, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the contract, in the manner and time therein prescribed, and according to the requirements of the Engineer as therein set forth, and that he will take in full payment therefore the following prices, to wit:

BID. NO.: 2025-01

FROM: Rob Marler, City Engineer

TO: All Bidders

PAGES: 1 of 2

This Addendum forms a part of the Contract Documents and modifies the original Proposal, Technical Specifications and Agreement, dated March, 2025. Acknowledge receipt of this Addendum when submitting the Proposal. Failure to do so may subject the bidder to disqualification.

- 2.01 The Contractor shall be responsible for adhering to Section 7 “Legal Relations and Responsibility to the Public” of the Caltrans Standard Specifications and provide the required traffic control devices to maintain a minimum of one lane of traffic at all times during construction.

Two potential options for traffic control that the Contractor may use for the shoulder work include (1) one-way flagging during construction hours to maintain the 15’ minimum buffer from construction activities, and then ensuring a 4:1 slope maximum at the shoulder during non construction hours, or (2) installing Type K railing at the shoulder, providing two lanes of traffic during construction and non-construction hours.

The Contractor shall be responsible for exploring these different traffic control requirements and shall include those extra costs in their bid if they result in a phased approach to construction of the sidewalks and pavement widening. The City will not approve additional compensation after contract award to account for Contractor oversight in this matter.

- 2.02 The City of Waterford is nearing the finalization and issuance of the Caltrans encroachment permit. Contractors will be required to obtain their own rider permit for this project. The City's permit will be shared as soon as possible but may not be available until after contract award. The Contractor should bid this project according to the available information (plans, specs, and addenda), but does not need to include any "anticipated" additional costs based on the expected encroachment permit. Any special provisions or requirements from Caltrans which result in additional cost will be addressed via change order, if necessary.
